Providing legal advice for IOM Electronics Ltd

IOM Electronics Ltd has recently enjoyed a very successful 2022. This growth has led it to employ 50 new staff members to both the sales and finance departments (two of the new employees have been employed at senior manager level). This is the biggest recruitment drive in the history of IOM Electronics Ltd and now means that IOM Electronics Ltd has a workforce of 200 employees (five of whom who are on fixed term contracts and 10 of whom who on part time contracts). This growing and varied workforce has led to the board of directors becoming concerned that their awareness of employee status is not up to date and accurate.
