## **Programme Specification Document**

1. Qualification Advanced Diploma in Continuing Professional Development	2. Programme Title Non Medical Prescribing for Nurses	3. UCAS Code	4. Programme Type <b>Modular</b>					
5. Main Purposes and Distin	5. Main Purposes and Distinctive Features of the Programme							
The purpose of the Programme is to enable students to develop both knowledge and skills leading to the Nursing and Midwifery Council (NMC) professional award and qualification as V300 Nurse Independent / Supplementary Prescriber.								
Special features								
The curriculum for the programme has been developed collaboratively between the other Universities within the North West of England who also provide Nurse Prescribing Programmes.								
The modules within the programme can be combined with further modules to obtain a Post Graduate Certificate, Diploma or full masters degree. The programme will focus on professional practice and therefore suits part time study. Learning will be a shared experience with practitioners dealing with similar professional issues in their own contexts.								
6. What a graduate should know and be able to do on completion of the programme								
<ul> <li>Knowledge and understanding in the context of the subject(s)</li> <li>a systematic understanding of the evidence base(s), formal and informal, underpinning their professional and nurse prescribing practice</li> <li>knowledge of principles informing accountability for their scope of prescribing practice</li> <li>knowledge of the needs of their service users and / or the community</li> <li>knowledge of physiological conditions and the use of medicines to manage or treat the condition relevant to their own area of professional practice.</li> </ul>		<ul> <li>Subject-specific practical/professional skills</li> <li>To demonstrate competence, autonomy and professional accountability in the development and deployment of prescribing skills.</li> <li>enhance, with others, service delivery and outcomes for service users and / or the community.</li> </ul>						
		Other skills (e.g. key/transferable) developed in subject or other contexts Transferable skills including team skills and leadership; practice that values user and carer needs and experiences; problem solving; numeracy appropriate to context; oral and written						
<ul> <li>The capacity to sy theory, to underpi of discretion and j making within pra leadership.</li> <li>high level of autor appropriation, trai</li> </ul>	<ul> <li>high level of autonomy in the critical appropriation, transfer and transformation of knowledge derived from diverse sources of</li> </ul>		communication skills, and Information and Communication Technology (ICT); and self- development.

9. Learning, Teach	9. Learning, Teaching and Assessment Strategy		10. Other Information (including compliance with relevant University policies)				
Learning and Teaching Methods A blended learning approach to teaching and learning are utilised. Consisting of a mixture of classroom sessions; group work and e-learning.		Date programme first offered         Feb 2011         Admissions Criteria         • Currently registered as a 1 <sup>st</sup> level Nurse / Midwife or Health Visitor on					
Reflective practice, group work, problem based learning, role play and critical analysis and discussion of major issues.		<ul> <li>the Professional Register maintained by the Nursing and Midwifery Council</li> <li>Have appropriate experience in the area of practice where there is an identified need for the individual to regularly use Independent and Supplementary Prescribing.</li> </ul>					
The range of strategies employed aims to maximise student learning potential. In addition, group and individual tutorial support will be given whilst encouraging studen to develop their own resources for independent learning.		Community Practitioners who hold a V100 or V150 prescribing qualification who already prescribe from the Nurse Prescribers' Formulary, and who, with local agreement, will extend their prescribing responsibilities under new arrangements must complete this programme of preparation and meet the assessment requirements. There will be recognition of prior learning and experience, however, <b>all</b> components of the assessment for each module must be completed satisfactorily.					
Assessment Methods Assessment methods vary according to the learning outcomes of each module. However, the assessments will include: • Assignment • Exams • Prescribing OSCE • Portfolio • Clinical Log Assessments are practice focussed and		<ul> <li>All entrants must also meet the following requirements</li> <li>An ability to study at a minimum of academic level HE6.</li> <li>Have the support or their employer. Students will not be allowed to complete this programme without the necessary support of their employers / sponsors, including confirmation that the entrant will have appropriate supervised practice in the clinical area in which they are expected to prescribe. Collaboration with Health Care Organisations in the selection of students will take place.</li> <li>Have an approved, designated prescribing medical practitioner who is a doctor who will provide the student with supervision, support and opportunities to develop competence in prescribing practice. (This</li> </ul>					

(where environminte) alignt ( convice was )	
(where appropriate) client \ service user \	includes shadowing opportunities).
patient centred. Students are required to	Basic computer literacy
contextualise their learning with reference to	<ul> <li>Access to the Internet (supported by their employer)</li> </ul>
their own current or recent experience.	<ul> <li>Students may enter this programme to complete at Level H6 or Level</li> </ul>
	H7, dependent on their past level of study and requirements.
Assessment Classification System	
Pass mark for individual written assignments	In addition, entry to the Masters level option will require the student to :
= 40%	• Have completed honours degree study (2 : 2 award or higher) OR have
However, pass marks for the exams are 80%	evidence of previous study at Masters Level.
for the Pharmacology paper and 100% for the	
drug Calculation paper to meet NMC	Verification of professional registration will be checked with the appropriate
professional requirements.	
F	Professional Body at the commencement of the course.
Classification Bands	Indicators of Quality and Standarda
70% and above – Distinction	Indicators of Quality and Standards
40-69% - Pass	1. Formal validation where a panel composed
40-0370 - 1 833	of independent internal and external
	representatives and an NMC Reviewer approved the curriculum
	submitted against its set of standard criteria
	as applied to all V300 Nurse Prescribing programmes
	2. An external examining system whereby all
	student work and teaching is monitored by a
	team of external examiners.
	3. Annual NMC professional monitoring.
	4. Regular formal and informal dialogue with external stakeholders
	including health service managers, NHS Northwest (Contract monitoring in
	relation to CPD funding and Annual Monitoring in relation to Skills for
	Health Interim Standards)
	5. Peer observation of teaching.
	6. Student evaluations linked to action plan
	where there is a need to change practice.
	7. Annual formulation and monitoring of quality
	enhancement plan from previous year.
