Aims of the programme	
The principal aims of the programme are to enable trainees:	
<ul style="list-style-type: none"> 1. to become professional practitioners in the lifelong learning sector. 2. to develop their practical professional competences, underpinning knowledge, and reflective practice strategies needed for effective teaching and support of learning in the Lifelong Learning Sector of education 3. to adopt an integrated approach to the theory and practice of teaching of their specialist area. 4. to reflect on their own previous/current levels of experience, practice and skills, and areas for development 5. to develop a reflective and reflexive approach to personal and professional development and research 6. to identify principles of their curriculum area learning, teaching, assessment and evaluation 7. to develop communication and interpersonal skills 8. to demonstrate high levels of proficiency in key skills commensurate with their individual development and professional circumstances 9. to develop an awareness of their professional role and responsibilities as a curriculum specialist teacher 10. to engage critically with key ideas in teaching and teacher education 11. to develop and feel confident in their own specialist skills 	
Distinctive features of the programme	
What a graduate should know and be able to do on completion of the programme:	
<p>The Scheme has a set of core and optional modules. These clarify the Scheme's scope and purpose; teaching and learning methods; learning outcomes etc., informed by national standards as appropriate. Work Based Experience is integral to the course and the modules. The integration of theory and practice is an important theme in the module assignments. Practical teaching is assessed by means of teaching observations which are related to module assessments. The teaching assessments are linked to the Personal and Professional Development (PPD) module.</p> <p>Trainees who are assessed as successful in each of the modules are inferred to have achieved the Scheme's aims and objectives, since the former are a detailed clarification of the requirements of the latter. Provided there has been no infringement of the University's or Scheme's regulations, such a trainee would normally be recommended to the Teacher Training</p>	

Assessment Board for a pass in the award for which they were registered.

By the end of their programme of study, trainees will have:

1. Explored educational research and related this to practice.
2. Acquired a secure understanding of the application of their own knowledge to classroom practice.
3. Made informed comment on the applicability, relevance and usefulness of theories, concepts and models, methodologies and techniques applied to practice.

Programme learning outcomes

Learning and teaching strategies

A variety of teaching and learning methods are employed throughout the programme in order to ensure the acquisition and development of the appropriate knowledge, understanding, skills and competences in order to achieve the learning outcomes. Some of these will be experienced during formally timetabled classes with your tutor and some will be experienced through workshops, small group and individual practical activities together with structured exercises and discussions. Individual support will be given in tutorials. Blended learning will be utilised as appropriate, for example utilising the VLE to provide an e-forum for trainee teachers to discuss their work and obtain peer support. You will be required to take part in e-discussions with peers and tutors and to make full use of ICT as a source of information and support and to maintain a portfolio of evidence.

It is expected that you will demonstrate significant independence in your study, taking responsibility for the management of your own learning time.

Assessment strategy

Course Work: Formative and summative assessment will be given during class and via feedback in tutorials. Trainees will be guided and directed to areas to areas of research and appropriate background reading in order to complete the required assignments.

WBE Teaching practice: Formative assessment and feedback will be given on the on-going development and delivery of trainees' teaching via 8 observed teaching sessions.

Assessment methods (KIS entry)

A variety of written tasks: written reports, assignments, portfolio submissions, individual and group presentations.

Practical Teaching (WBE) : micro teach (PTLLS), 8 successful teaching observations (including 4 graded observations).

Assessment regulations

- Assessment Regulations for Undergraduate Modular Programmes

Grade bands and classifications

(for information only at this stage – the Assessment regulations are being revised for September 12.)

In order for trainees to achieve a 'Pass', all the specific assessment criteria must be addressed and achieved. In addition, the general criteria must be addressed. The following grade descriptors provide the opportunity to recognise the extent to which the trainee has achieved the general criteria for assessment.

Following formal assessment of an assignment, there are, therefore, four possible outcomes – distinction, merit, pass and refer, (in line with the Ofsted grading of 1, 2, 3, 4). 'Refer' indicates that the work submitted is inadequate. Detailed feedback will be provided to enable a second attempt to be made. The maximum grade possible following a second attempt will be a 'pass'. An assignment which is does not meet all the criteria following a second attempt will routinely be second marked to ensure the accuracy of the grade.
